Responsibilities of the Hosts:

1. Be in touch with the speaker(s) to see if they will need the association computer, and, if so, pick up the computer from the extension office and bring it to the class.
2. Arrive early to open the room and make sure the presentation system is set up.
3. Generally provide any support the speaker may require.
4. At the end of class, collect evaluation forms and get them to Pat whenever convenient.
4. After class, make sure the room is left as it was found, the presentation system is off and the room is locked up. (Powhatan lock up is a bit tricky. The library is already closed and we have to lock the outside door.)
5. In Goochland, leave the participation report at the desk. In Powhatan, leave the participation report and the keys in the book drop.
